

JUNIOR APPLICATION SUPPORT & AUTOMATION INTEGRATION ENGINEER

Looking to kick-start your career in IT? We've got the perfect opportunity for you! The Junior Automation Support & Automation Integration Engineer will have the chance to support the growth of our business in a fast-changing environment.

Dive in and get hands-on experience in the world of finance, payment and credit, working for an unconventional digital bank in the heart of Luxembourg!

This opportunity is a full-time CDI contract.

ABOUT THE JOB | Your responsibilities

- **Provide software/business application support** within a cross-functional delivery model (DevOps)
- **Analyse software application functionality** and suggest improvements
- **Ensure both front-end and back-end functionality** of applications
- **Collaborate with software development engineers, testers, business analysts, and internal/external users** to identify and implement solutions for improving application performance
- **Assist in managing code migration** across different environments, ensuring consistent and synchronized functionality
- **Identify the root causes of application errors** and escalate critical issues to senior team members
- **Maintain records of configuration changes** and proactively schedule application updates and upgrades
- **Document processes and procedures**, tracking and monitoring application performance metrics
- **Provide effective support to clients and colleagues** across business departments

ABOUT YOU | Your background, skills and personality

- Vocational training or a diploma in Information Technology or a related field. Prior experience in a similar role is advantageous
- Strong troubleshooting, analytical, and time-management skills
- Basic knowledge of the following environments:
 - SQL server
 - Core banking system (Temenos T24)
 - Archiving platform (Documentum)
 - Customer communication platform (xPression)
 - Workload automation platform (Automic)
- Experience in setting up and monitoring production jobs
- Ability to ensure secure data transfers, both internal and external
- Contribute to the coordination and deployment of new software releases in User Acceptance Testing (UAT) and Production environments
- **Fluency in English** is essential; proficiency in French, German or other languages is a plus
- **Collaboration and teamwork:** A natural team player who thrives in a flat organisational structure, values input from all levels and actively contributes to the collective success of the team
- **Hands-on approach:** Willingness to roll up sleeves and get involved, demonstrating a down-to-earth attitude to get the job done
- **Adaptability and flexibility:** Comfortable working in a dynamic environment, navigating change effectively
- **Accountability and integrity:** Takes responsibility for personal performance and acts with honesty and transparency in all areas
- **Self-motivation and drive:** dedicated and motivated to achieve both individual and team goals, with a commitment to excellence and continuous improvement

ABOUT ADVANZIA | The European digital bank

*Advanzia Bank's **mission** is to make finance easier and more inclusive by offering simple, smart and user-friendly payment and credit solutions that provide financial flexibility and deliver added value for our customers. Our way of working is guided by responsible lending, open communication and teamwork in cooperation with employees, business partners and customers.*

At Advanzia, we are committed to equal opportunities and embrace diversity as a driving force behind our success. We offer challenging projects in a dynamic, fast-paced environment, along with numerous opportunities for training and development, and a performance-driven bonus structure. Our benefits package includes Pluxee lunch vouchers, employee travel insurance, preferential rates on Advanzia products, as well as transportation and wellness allowances. Our zero-carbon Emerald building is designed to support employee health and wellbeing with various health programmes, access to our gym and after-work sports & social events available to all members of **#TeamAdvanzia**.
